

T-STRAND™ OSB | CARGO FLOOR & CARGO WALL

Engineered to perform. Designed to impress.

At Tolko, we've built our reputation on quality products, customer commitment and an unwavering integrity in all that we do. With our line of mill certified T-STRAND OSB Cargo Panels, we provide a consistent source of OSB specifically designed for cargo trailer manufacturers.

Cargo trailers have a tough job and Tolko's T-STRAND OSB Cargo Floor panels are built to work. This enhanced flooring is engineered for strength and durability and will support your trailer to the job-site, into the bush, and across the country.

Enclose your cargo trailer with the bright white fibres of Tolko's Canadian Aspen wood. T-STRAND OSB Cargo Wall panels strike the balance between strength and weight for a sturdy, lightweight trailer.

- ✓ Superior moisture durability
- ✓ Engineered consistency
- ✓ Enhanced fastener holding

The Engineered Difference

Tolko T-STRAND OSB Cargo Panels provide a proven solution for trailer manufacturers. Our precise mixture and manufacturing process result in a consistent panel tailor made for cargo trailers. Our products meet the demanding expectations of our customers and live up to the Tolko name.

T-STRAND OSB CARGO PANELS

Widths¹	4'	4'

1 For promotional purposes, lengths and widths are nominal sizes; actual product dimensions comply with U.S. Weights and Measures requirements.

Recipe for Superior Performance

We start with Canadian Aspen wood fibre to produce superior OSB products that are lighter, more durable, and built to work.

The fibre is cut into strands and bonded with moisture resistant resins to optimize the collective strength and consistency of the panel.

T-STRAND OSB panels are pressed with intense pressure and temperatures to create a panel with low moisture content and a resistance to warping, swelling, and flaking.

NAUF Guaranteed

T-STRAND OSB products contain no added urea-formaldehyde resin (NAUF).

Committed to sustainable forest management

We manufacture our products from renewable, recyclable and biodegradable resources, and our practices are guided by our Forest Management Principles and Environmental Policy. We also adhere to globally-accepted Sustainable Forest Management (SFM) and Chain of Custody (CoC) standards.
